

## Main Features

The Sesam 800 RXDIN receiver is the standard internal panel receiver with cable and external antenna.

It interfaces with each SESAM 800 series transmitters. Programming is done with an internal button which, hold in different sequences, allows to matches 1 or more different transmitters with a different selection of internal relays. Each receiver can be used with a large number of transmitters.

The Sesam 800 RX DIN receiver is a small compact receiver for assembly on DIN rail.

## Technical Features

- **Number of relays** 3
- **Memory capacity** max 100 transmitters
- **Frequency** 869.8 MHz GMSK
- **Supply Voltage** 12-24 V AC/DC or 230V AC
- **Current consumption** 60mA (+30mA when the relays is active) at 12V DC
- **Relay contact rating** NO/NC 8A/3A 230V AC (resistive load)
- **Power consumption** max 5W
- **Response time** 50ms (typ.)
- **Temperature Range** -25°C to + 70°C
- **Protection class** IP65
- **Size** 85x75x30mm
- **Weight** 180g
- **16.7 million unique codes**
- **CRC-16 hashcheck**
- **Configurable security mode with encrypted authentication**
